Above: In the wife's studio, the designer selected a writing table, bar stools and bench covered in a C&C Milano fabric, all hailing from Alton House. The table lamp is Visual Comfort & Co. and underfoot is a rug from Mansour.

Opposite: A reflecting pool just outside the studio creates a contemplative moment in the courtyard. Landscape architect Nord Eriksson chose plants like desert willow, Jerusalem sage, Mexican sage, aloe vera and Asian jasmine to flank the water and pathways.
